Most importantly we get your claims processed more accurately and in a timely manner so you get paid faster for the repair services you perform.

Hear What Your Peers Have to Say

Don's Appliances started using JustPressOne in June 2024 for warranty claims processing. After initial integration, their team handles everything from processing and fixing the rejected claims, all the way through until we receive payment from the manufacturer. The time we used to wait to receive credits and payments have almost been cut in half. The constant communication with any claim issues have been able to be handled almost immediately rather than finding the issues several weeks later. Overall, JustPressOne has been a game changer for us, and we couldn't be happier with the customer service they provide. We highly recommend their services to any appliance servicer looking to simplify their warranty claims process.

Don's Appliances

We've been using JustPressOne for over two years now, and we are pleased with their attentive and efficient warranty claims processing. Previously, we handled claims in-house, but the constantly changing manufacturer policies made it challenging and time-consuming. Now we don't have to worry about training a new employee when things change. They have a dedicated contact who handles all our claims who has taken the time to learn about our company and we work very well together. (We appreciate Kirk) Outsourcing has streamlining the process for us while proving to be a cost-effective solution. We Highly recommend JustPressOne's claims Processing Services!
